No problem, thank you for the quick response. Do you happen to know roughly the dates the facilities were built?

Thanks,

Chris

Hi Chris-

Have your email now...thanks.

We use Granulators and Powderizers at all three facilities. None of them use Cracker Mills.

Hope that helps – and let me know if you need anything else.

Thanks

Steve

Subject: Processing technologies

Hi Steve,

Just sending you an email so you would have my address. If you able to find out the different kinds of processing technologies that are used at the facilities you mentioned in Utah, Iowa and Georgia, that would be great.

Thank you,

Chris
